And the villain still pursued 'em! The wife of Bob NOAKES, one of Tom CAMPBELL's self-confessed perjurers, has filed suit for divorce from the disreputable "star" witness, and a house belonging to Judge PAINTER burned at Greencamp a few days ago. The list is growing.

ONE of the stock-in-trade arguments of the Prohibitionists in their opposition to a high license system, is their objection to using money thus obtained for the purpose of carrying on local government. Danville is a Prohibition town, and is a striking example of the fact that Prohibition doesn't prohibit. A few days ago the Chief of Police and the City Attorney made a raid on the "blind tigers." Evidence was collected for one hundred and thirty warrants, and the fines will aggregate \$7,000. One hundred and thirty warrants for selling liquor in a "Prohibition" town isn't much, it is true; but what have the "Frohbits" to say about using that \$7,000 in paying the expenses of the city government?

In Covington, In December last, about the middle. A boy was driving a horse. The horse was hatched to a wagon. The boy was on, or in, the wagon. The horse, and the wagon, and the boy, all started to cross the C. and O. tracks. The horse may have been a blind horse. Or the boy may have been a blind drunk boy. The wagon, maybe, was as sober as a rickety Covington wagon can be. However, the horse stumbled over a board in the neighborhood of the C. and O.'s possessions. The horse fell. The wagon stopped short, like grandfather's clock. But the boy didn't. He fell off, or out, of the wagon, and didn't stop till he hit the ground—which belonged to the C. and O. And he was like unto the Irishman who declared the fall was nothing—it was the sudden stop that hurt. So the boy had his side hurt when he hit the C. and O.'s ground. But he still lives; even at the end of two months! In fact, he is so much alive that he has found an enterprising lawyer who has been willing to sue the railway company for \$5,000 damages! And then his father is also alive—and enterprising. In addition, he's as full of beans as a dog is of fleas. Just to think how he suffered in mind—and pocket-book—by the loss of that son's services for our War with Spain. Now it is the turn of the United States.

England made millions out of our Civil War, and did not lose anything in our War with Spain. Now it is the turn of the United States. The Americans are now sending from our shores \$4,000,000 worth of exports every day. Of this over \$1,000,000 per day is manufactured goods.

Take the increase by decades. The figures given are quoted from a statement from the Treasury Department: "In 1860 the exports of manufacturers averaged \$3,500,000 per month; in 1870 they were \$10,000,000 per month; in 1880 they were \$10,000,000 per month; in 1890 they were \$22,000,000 per month; in 1890 they were \$28,000,000 per month, and in the fiscal year 1900 \$36,000,000 per month." More than three-quarters of these exports go to Europe.

The big thing this country leads so markedly that sometimes it hardly seems that it has any competition. In wealth it is at least 25% ahead of any other Nation. In coal and other resources it has a paramountcy—to borrow a word from our current politics—which towers bewilderingly. In the annual products of its manufactured industries it is nearly 50% ahead.

The case of the Government against Samuel STITH and J. L. THOMPSON, at Paris, was called Tuesday in the Federal Court at Louisville.

CONFEDERATE BONDS.

Delayed Englishmen Who Still Believe They Will Be Paid.

Atmospheric Journal.
It is surprising that there are in England many persons who still cherish the delusion that the bonds of the Southern Confederacy will be paid. Some of them are men who have been Prohibitionists, and especially so. There has been an organization known as the British Capitalist Association, and it had a meeting a few days ago. The Society reported that the Society had \$40,000,000 of Confederate bonds and \$25,000,000 of the bonds of the states of Virginia, Mississippi and Louisiana. These bonds were offered to the English, and their faith that they would be paid by the United States Government. These Utopians are as wild as those who expect to get pay for their emancipated slaves.

Some years ago there was a great deal of interest in Confederate bonds. They were advertised for many Southern newspapers, and brokers were commissioned to buy them. The last appearance of this craze was in 1880, we believe, and even then as much as \$12 and \$18 a thousand was paid for Confederate bonds. We know of several Confederate bonds. This was a fiction, but it gained very wide circulation both in this country and England.

AMERICA'S OPPORTUNITY.

While England Was Fighting We Got Some of Her Trade.

Saturday Evening Post.

In this practical world there is nothing quite so great as a great opportunity.

During the past twelve months much has occurred in England. More than 200,000 troops, the flower of British manhood, have been causing the Government to spend millions of dollars a day, and more, in the cost of their maintenance, with the absence of the heart of England's working force, and with the presence of the financial problem, the sharp-witted American saw his chance. This has happened not only in regard to the transportation problem in London, not only in respect to the charters for trolley lines in other cities of England, but also in the building of large industries on American plans and the profitable employment of American capital.

England made millions out of our Civil War, and did not lose anything in our War with Spain. Now it is the turn of the United States. The Americans are now sending from our shores \$4,000,000 worth of exports every day. Of this over \$1,000,000 per day is manufactured goods.

Take the increase by decades. The figures given are quoted from a statement from the Treasury Department: "In 1860 the exports of manufacturers averaged \$3,500,000 per month; in 1870 they were \$10,000,000 per month; in 1880 they were \$10,000,000 per month; in 1890 they were \$22,000,000 per month; in 1890 they were \$28,000,000 per month, and in the fiscal year 1900 \$36,000,000 per month."

More than three-quarters of these exports go to Europe.

The big thing this country leads so markedly that sometimes it hardly seems that it has any competition.

In wealth it is at least 25% ahead of any other Nation. In coal and other resources it has a paramountcy—to borrow a word from our current politics—which towers bewilderingly. In the annual products of its manufactured industries it is nearly 50% ahead.

"A FAMOUS VICTORY."

Ruimellers Rejoice Over Defeat of Army Canteen Bill.

Chicago Inter Ocean.
The saloon-keepers of Kansas are trembling and running away from the hatchet cohorts of Mrs. Nation, and all Prohibitionists rejoice over the rout of the saloon-keepers. The saloon-keepers there are many hundreds of places under the American Flag where the saloon-keepers rejoice in the certainty of greater profits than they have had for years, and where the Prohibitionists, if they possessed any sense of the fitness of things, would be putting on their hats.

One of these places is Highwood, a suburb of this city. The canteen at Fort Sheridan, as the result of a famous Congressional victory over the power, has been closed. The Highwood saloon-keepers estimate that this means the swelling of their receipts by \$10,000 a day, and that the saloon-keepers are demanding a larger police force. Meanwhile, several employees on the electric cars that run through Highwood have asked to be transferred to other positions. They know right-producing powers of the liquor.

Stupor rejoicings, police arrangements, and expressions of a desire to get out of the way of trouble probably have come to pass in and about every one of our military posts. This certainly is the case near Detroit, where there was a skirmish between drink-maddened soldiers in a nearby saloon the day after the Fort Wayne canteen was closed. Only the saloon-keepers and the Prohibitionists are glad, the former because their profits will grow and the latter because—well, it is hard to say. As of these women, however, "because" is the best word.

"But what good came of it last?" said Little Peter.

"Why, that's a good retort," quoth he, "but it's not a famous victory."

That seems to be, or at least ought to be, the feeling of the Prohibitionists in regard to their famous victory in Congress.

AN NARROW ESCAPE

Boers Wreck a Train on Which They Thought Gen. Kitchener Was a Passenger.

HE HAD PASSED ON ANOTHER TRAIN.

The Commander-in-Chief's Second Danger of Being Taken a Prisoner Calls Out Newspaper Warnings.

Acting President Schalkburger Says the Boer Cause is Quite Hopeless and is in Favor of Surrendering.

London, Feb. 21.—A special dispatch from Pretoria says the Boers had derailed a train containing Gen. Kitchener's baggage. The train was preceded by another, on which the commander-in-chief was a passenger. An armistice had been drawn by the Boers, but the latter renounced the contents of the train derailed. It is believed that the Boers were aware of Gen. Kitchener's presence on the train and intended to capture or kill him, but derailed the wrong train.

Lord Kitchener's narrow escape from capture has caused newspaper warnings as to the danger of his rapid flightings by train from place to place. It is considered better for him to remain in Pretoria than to risk upsetting his carefully elaborated plan of campaign.

A Boer general is now back in Pretoria, the inference is that Gen. DeWet has again escaped from the supposed cordon.

No News From Gen. French.

There is no further news of Gen. French's pursuit of Commandant Gen. Botha in the Eastern Transvaal.

Statements emanate from both Pretoria and Bloemfontein, however, that he is just finished writing a memorial on the war which will be sent to the European governments and to President McKinley.

Pretoria, Feb. 21.—Reports from Lydenburg say that Acting President Schalkburger, addressing a gathering of burghers recently, told them he now recognized that their cause was quite hopeless, and that a prolongation of hostilities was futile. Possibly, he said, they would not take up arms to advise surrender, but he would say that if surrender was inevitable it was foolish to surrender in twos and threes, as the proper course was to come to a general agreement and surrender as a nation.

Lord Roberts' New Position.

London, Feb. 21.—Lord Roberts, it is asserted, has been offered the rank of warlordship of the Ciskei portion which the marquis of Salisbury desires to relinquish. The post was formerly held by the duke of Wellington.

ARSON AND MURDER.

Two Men Arrested at Stringtown, W. Va., Charged With Firing a Drug Store—Loss of Life.

Sistersville, W. Va., Feb. 21.—Wednesday morning word was received from the sheriff that a small incendiary bomb had exploded in the interior of Tye county, and a fire started in a drug store and before the flames could be got under control late Wednesday morning several buildings had been consumed and that John Clendenning had been burned to death. The report was verified later in the day, and the latest report from Stringtown is that two men have been arrested for arson and murder.

It appears that there had been a sort of Carrie Nation crusade in the oil village against the dives and "vice easiest" during the past two weeks, and that a bomb had been given that unless the proprietors of the drug store over which Clendenning slept stopped selling liquor the place would be either burned or blown up.

MINERS ENTOMBED.

Coal Mine Flooded by the Water From an Abandoned Shaft Near Tuscaloosa, Ala.

Birmingham, Ala., Feb. 21.—This afternoon entombed in the coal mines of the state insane asylum, about seven miles from Tuscaloosa by a flood of water from an abandoned shaft which rushed upon the men, almost without warning, filling the mine with water so fast that a large force of hands at work pumping the water out of the mines but little progress is being made as it fills up almost as rapidly as it is pumped out. The fate of the entombed miners is problematical. It is thought they will take 24 to 48 hours to clear the mines. At present there appears practically no hope unless air reaches them in a short time.

The Statement Drafted.

Washington, Feb. 21.—Statements that Gen. Harrison Gray Otis was seeking the office of pension commissioner were Wednesday night denied by Gen. Otis, who says that they were without a shadow of truth.

Want Submarine Vessels.
Glasgow, Feb. 21.—The admiralty on the one side, and the submarine fleet on the other, are to construct five submarine vessels similar to those which have recently had successful trials in the United States.

OFFICERS' VIGILANCE.

That Was All That Saved "Slick" Slater From Being Lynched at Topeka, Kan.

Topeka, Kan., Feb. 21.—The vigilance of officers was all that saved "Slick" Slater, the Negro rapist, from lynching Wednesday night. He will be lynched Saturday morning if he is not freed by then. He was picked up by Topeka officers the next day in Carbondale, 20 miles from here. The officers kept the fact of the capture quiet and placed Slater in the county jail while they organized details for the lynching.

An Armed Mob Formed.

By 6 o'clock a mob of 1,000 men was gathered at the county jail to lynch the prisoner. A bridge of strength Santa Fe boiler makers, armed with heavy sledge hammers, stood ready to make short work of the jail in case the demands were not granted.

Sheriff Cook told the crowd that the prisoner had been removed, and offered to let a committee search the jail. The mob refused and made a thorough search. Slater could not be found and the men so reported. This failed to satisfy the mob, and twice they started to break in the jail doors.

It developed that early in the afternoon the sheriff had sent for Sheriff Cook and ordered a deputation to get Slater out of town. The deputation drove to Hoyt with Slater and entered a northbound Rock Island train with him. It is thought here that the man is now in jail at Atchison.

CHICAGO SALOONS RAIDED.

Three Were Damaged by Adapters of the Methods of Mrs. Carrie Nation, the Kansas Shocker.

Chicago, Feb. 21.—Three saloons in this city Wednesday night were damaged by admirers of the methods of Mrs. Carrie Nation. The total damage suffered by the three proprietors will amount to several hundred dollars. The smashing was done in each instance by a different person and necessarily so, as the police gathered in the saloons with select promptitude and locked them up. The saloons damaged were those of:

Peter Belegrine, 24th and State streets—plate glass door broken by Mrs. Agnes Green Smith. Damage \$50.

The Bergoff, State and Adams streets—plate glass door and window broken by Frank Owens. Damage \$200.

Chas. Vietzen, 270 S. Clark street—plate glass door and glassware broken by James Clab. Damage \$100.

INAUGURAL PARADE.

Biggest Contingent the Navy Has Had in Washington Since the Rebellion Will March.

Washington, Feb. 21.—More than 1,000 sailors and marines, the biggest contingent the navy has had in Washington since the civil war, will march in the inaugural parade. In addition to the Dolphine and Sylph, the big double-turreted monitor built for the Dixie, the Hartford, the Texas and the Lancaster, will be ordered to Washington to participate in the ceremonies. These big ships can not all reach the capital because of their draft, but they will be anchored in the Potomac, probably off Alexandria, making a pretty naval display, for they will be smartly dressed with flags by day and illuminated by electricity at night.

PRIVATE BANK ROBBED.

The Robber, a Farmer's Son, Captured and the Money, Some \$1,620, Recovered.

Rantoul, Ill., Feb. 21.—The private bank of R. E. Peck, in Rantoul, Christian county, was robbed Wednesday by Arthur Hyer, a farmer's son, aged 22 years, who entered the bank and shot the cashier with a pistol. The cashier, Arthur Venner, handed the gun to the robber and, instead of the door, boarded a freight train just pulling into the Illinois Central yards and took charge of the engine. An alarm was given and several citizens armed themselves and stopped the train. The robber was taken from the engine cab and all the money was recovered.

INDELIBLE PENCILS.

A Chicago Physician Has Begun a Crusade Against Their Use—they Are Poisonous.
Chicago, Feb. 21.—Dr. Elmer E. Prescott, a local physician, has begun a crusade against the use of the indelible pencil. He believes that, with being the cause of innumerable sore lips and fingers, and sometimes poisoning so severe as to result in death. Dr. Prescott says the coloring matter in the indelible pencil is aniline, the dye which in the stockpiles of Senator Cushman K. Davis, of Minnesota, caused his death from blood poisoning.

Fall of Snow in Madrid.

Madrid, Feb. 21.—There was a heavy fall of snow here, the first in eight years. The streets are covered with snow and traffic is difficult.

TERMS MODIFIED.

The Foreign Envoys Agree to a Compromise in the Punishment of Guilty Chinese.

PRINCE CHWANG IS TO BE STRANGLED.

Yu Hsien, Chi Hain and Hsu Chang Wu Are to Be Beheaded in Peking.

Sentences of Decapitation in the Cases of Prince Tsuan, Duke Lau and Gen. Tung Fu Hsiang Committed.

London, Feb. 21.—"At their last meeting," says the Peking correspondent of the Morning Post, "the foreign envoys agreed to compromise, they propose to permit the importation of opium, to postpone the execution in the cases of Prince Tsuan Duke Lau and Gen. Tung Fu Hsiang to life imprisonment, and will agree to the following punishments: Prince Chwang to be strangled, Chao Shu Hsi to be decapitated, Chao Shu Hsi and his confederates to be flogged, that they had slain five of the best known young women of Diversburg for assault, and this horrible plan is causing the spirit of vengeance among the citizens. A number of Negroes were whipped out of Diversburg Tuesday night."

LYNCHING IN ARKANSAS.

A Colored Man Charged With Abusing a Little Girl, Put to Death by Eight Masked Men.

Mina, Ark., Feb. 21.—Peter Berryman, colored, was lynched here Wednesday night.

Locally, Feb. 21.—Dr. George W. Bryerman was arrested Tuesday night for brutally kicking Essie Osborne, aged 12 years, in the abdomen because she told him not to come in their yard after water. He was placed in the county jail for trial on Saturday. Saturday after midnight Officer Jones, while riding rounds some distance from the Tal Yuen Fu expedition censes to exist.

Commenting on the latest advice from Peking the Times says: "It may be that the responsible authority may be strangulation instead of decapitation. If the foreign envoys have agreed to this, then justice is virtually settled, and they will be condemned to death." Officer Jones, while riding rounds some distance from the Tal Yuen Fu expedition censes to exist.

Power to Be Congratulated.

"At the same time the powers are to be congratulated that it is not necessary to carry their threats into execution. It may be desirable to continue military preparations until the penalties are actually inflicted, as any sign of hesitation on the part of the Chinese may easily lead to fresh treacherous by their side."

Commenting upon the obscurity of all the surroundings of Count Von Waldersheim's project the attorney of the United States on the subject and Lord Cranborne's statement that such a project may have been hatched, which seems to have been hatched, by the British government never had any intention of sharing in it, the Times says: "We trust the Chinese submission will relieve us from further consideration of the serious question that would have been raised had one power contemplated a separate expedition in the interior without the consent and co-operation of the others."

Legations in PEKING.

They Will Be Fortified and Given a Heavy Gun Inside a Twelve-Foot Mant.

Berlin, Feb. 21.—Further particulars regarding the proposed fortification of the legations at Peking have been added to the National Zeitung. The legation quarter is between the Chung Chin gate, Tsien gate and the chief wall of the city. This quarter will be enclosed by modern fortifications with twelve-foot breastworks and gates having a portcullis protected by barbed wire. Each legation will be further fortified and defended by a heavy gun. The chief entrance will be a gate in the Tartar wall, defended by bastions. The artillery will command the Tartar and imperial cities. The barracks are to accommodate 2,000 men, and in a space of 5,000 men.

FEEDING THE ANIMALS.

Tammany Tigers Swipe 8,500 Pounds of Good Steak and Swill 300 Barrels of Bad Beer.

As an example of how a Tammany politician spends money when he feels like it, Saturday night last furnished an occasion. The Tammany organization of the Twenty-second Assembly district, New York City, entertained their friends, and what was thought the grandest that the vast Grand Central Palace was jammed tighter than ever before in its history. Everybody who is anybody in the Wigwam showed himself, and most of them stayed until the morsel of steak was gone and the lights faded on the half-torn vaudeville banner.

When the weary ticket takers counted up the pasteboards, they found 19,500 of them, and it was said that 3,000 persons had been passed in without tickets.

But it was the beefsteak and the "trimmings" that will linger longest in

the memory of the guests. There was consumed no less than 8,500 pounds of high quality beefsteak, 6,000 loaves of bread, 300 barrels of celery, 300 barrels of onions, 200 pounds of bacon.

To prepare and serve the feast required the services of 36 cooks, as many assistants and 200 waiters. The latter were all volunteers from the ranks of the Mohican Club, and they are qualified today for a job on any food wagon eleven times the country. They had a good enough bunch of men to work, but they acquired nearly all the elementary principles of hustling in a crowd and getting them first. The crowns, all porterhouse cuts, were served in thick slices, and each slice was laid on a piece of bread. Knives and forks were dispensed with. They would not have been used anyway.

A., is credited with having made the statement many years ago that the sinking of clams into the sand along the shore by closing their shells and ejecting the water from them in a thin stream first suggested to him the use of the water jet as an aid in sinking piles in sand. In 1871 he obtained a patent for the use of the Mississippi and Missouri rivers, large numbers of piles have been driven for the construction of the brush and pile dikes, and in the sinking of these piles the water jet has been used in since 1881.
